

TESTCRAFT EXAM SOFTWARE . . .

. . . is a robust, powerful assessment authoring, delivery, and result analysis solution that requires nothing more than a web browser and Internet connection. It is surprisingly easy to learn and intuitive to use – making assessment delivery a stress-free event for both authors and respondents – with unmatched scalability that naturally maps itself to any size organization, and reporting capability that offers a unique edge with regards to assessing and improving training across your entire intellectual landscape.

Whether you are looking to integrate with an LMS (you won't believe how easy we'll make that) or you are seeking stand-alone exam software, Testcraft is the one solution that delivers 400 or 4 million assessments per year without skipping a beat.

Now that's performance!
